Sample Information										
Lab Use Only MVTl LAB #	Temperature		Number of Containers	Sample ID	Test Option	Coliform Bacteria	Additional Analytes	Additional Analytes	Comments	
	<6°C	Warm								
	<6°C	Warm								

Test Options	
Spray Water	Potassium, Calcium, Magnesium, Sodium, Iron, pH, Hardness, AMS Recommendation
Livestock Use	Sulfate, Nitrates, Conductivity & TDS (Calculated)
Irrigation	Conductivity, Calcium, Magnesium, Sodium, Nitrate+Nitrite, TDS (Calculated), SAR
Routine Group	Conductivity, Calcium, Magnesium, Sodium, TDS (Calculated), SAR, pH, Iron, Hardness, Manganese, Nitrate+Nitrite This group is good for determining suitability for general household use, irrigation, and for determining water treatment options.
General Chemistry	Conductivity, Calcium, Magnesium, Sodium, TDS (Calculated), SAR, pH, Iron, Hardness, Manganese, Nitrate+Nitrite, Sulfate, Chloride, Potassium, Alkalinity, Fluoride This group is good for determining suitability for general, household use, livestock, and irrigation and for determining water treatment options.

Additional Analytes - Place Check Mark to Request										
Nitrate/Nitrite	Chloride		Coliform Bacteria Samples							
Sulfate	Lead		<p>If total coliform is to be checked, a separate sterile container is required. Please use caution with the sterile plastic bottle. DO NOT rinse this jar and avoid touching any inner surface of the bottle or lid with your fingers. (The white powder should be left in the container.)</p>	Sampler Signature						
Fluoride	Arsenic			Date						
Iron	Sodium			Time Sampled				<input type="checkbox"/> AM	<input type="checkbox"/> PM	
Manganese	pH			>Water sample collection should occur as close to the well as possible.						
Alkalinity	Conductivity			>To ensure the sample best represents the groundwater source the sample should be collected at a location before the water is treated by a water softener, iron filtration unit, water heater, reverse osmosis unit, or any other water treatment system.						
Calcium	Hardness			>Let the water run for 5 minutes.						
Magnesium	SAR									
Potassium	TDS
