## Sampling Instructions

1. Liquid manure -Agitate the manure site before sampling. Take several different subsamples from various location within the manure structure. Composite all the subsamples into the bottle provided.  
  
Solid manure – Subsample various areas of the manure pile. Taking from multiple depths, mixing all subsamples together into the bottle provided.
2. Label sample bottles with an Identification name or number.
3. Place manure sample bottle into the plastic bag provided.
4. Place bottle inside of the pre labeled shipping box. (During seasons with warm temperatures please FREEZE manure before shipping samples.)
5. Fill out the sample submission form.
6. Place submission form and payment inside of the box. **DO NOT PUT SUBMISSION FORM AND CHECK IN THE PLASTIC BAG.**
7. Ship manure sample to the nearest lab location. Lab locations shown on page 1.

Please send payment with samples. Results will NOT be sent until payment is received.
