Sampling Instructions

1. **Liquid manure -Agitate the manure site before sampling. Take several different subsamples from various locations within the manure structure. Composite all the subsamples into the bottle provided.**
2. **Solid manure – Subsample various areas of the manure pile. Taking from multiple depths, mixing all subsamples together into the container provided.**
3. **Label sample bottles with an Identification name or number.**
4. **Place bottle inside of the pre labeled shipping box. (During seasons with warm temperatures please FREEZE manure before shipping samples.)**
5. **Fill out the sample submission form.**
6. **CONTACT MVTL FOR CURRENT PRICING.**
7. **Place submission form and payment inside of the other bag provided.**
8. **Ship manure samples to MVTL using the address shown on page 1.**
